## **INDEPENDENT AUDITORS' REPORT**

Board of Directors  
Auburn Area Recreation and Park District  
Auburn, California

### **Opinion**

We have audited the accompanying financial statements of the governmental activities and each major fund of the Auburn Area Recreation and Park District as of and for the fiscal year ended March 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of the District as of March 31, 2023, and the respective changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Change in Accounting Principle**

As described in Notes 1, and 4 to the financial statements, as of April 1, 2022, the District adopted new accounting guidance, GASB Statement No. 87, *Leases*. Our opinion is not modified with respect to this matter.

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of proportionate share of the net pension liability, schedule of pension contributions, schedule of changes in the District's total OPEB liability and related ratios, and the notes to the required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Prior-Year Comparative Information**

The financial statements include partial prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended March 31, 2022, from which such partial information was derived.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued a separate report dated June 23, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

*Management's Discussion and Analysis (Unaudited)*  
*For the Fiscal Year Ended March 31, 2023*

---

Management's Discussion and Analysis (MD&A) offers readers of Auburn Area Recreation and Park District's financial statements a narrative overview of the District's financial activities for the fiscal year ended March 31, 2023. This MD&A presents financial highlights, an overview of the accompanying financial statements, an analysis of net position and results of operations, a current-to prior year analysis, a discussion on restrictions, commitments and limitations, and a discussion of significant activity involving capital assets and long-term debt. Please read in conjunction with the financial statements which follow this section.

**FINANCIAL HIGHLIGHTS**

- The District's net position decreased 2.68%, or \$278,078 from the prior year's net position of \$10,372,887 to \$10,094,809 as a result of this year's operations.
- Total revenues from all sources increased by 6.20%, or \$350,289 from \$5,651,947 to \$6,002,236, from the prior year, primarily due to an increase in property tax revenue of \$263,018.
- Total expenses for the District's operations increased by 35.92% or \$1,659,564 from \$4,620,750 to \$6,280,314, from the prior year, primarily due to an increase in employee benefits and depreciation expenses of \$1,241,089 and \$144,424, respectively. The increase in employee benefit expenses was due to the annual revaluation of the District's Net Pension and OPEB liabilities, and is non-cash in nature.

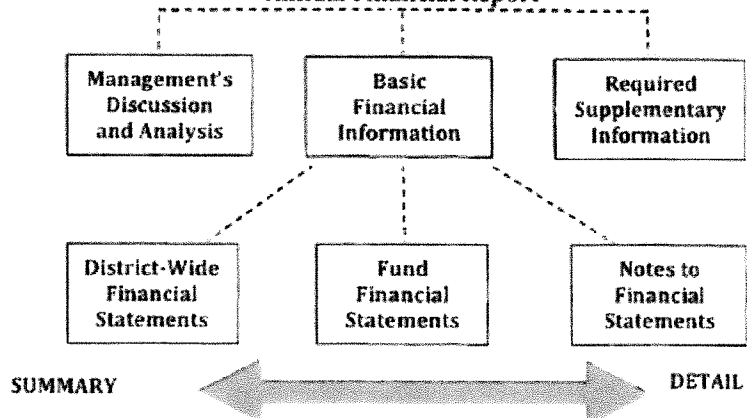

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts - management discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- *District-wide financial statements* provide both short-term and long-term information about the District's overall financial status.
- *Fund financial statements* focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
  - The *governmental funds* statements tell how basic services were financed in the short term as well as what remains for future spending.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

**OVERVIEW OF THE FINANCIAL STATEMENTS (continued)**

The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

**District-Wide Statements**

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how it has changed. Net position – the difference between the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources – is one way to measure the District's financial health, or *position*.

- Over time, increases and decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District's demographics and the condition of buildings and other facilities.
- In the district-wide financial statements, the District's activities are categorized as *Governmental Activities*. Most of the District's basic services are included here, such as weed abatement, landscape maintenance, and administration. State and local programs finance most of these activities.

**Fund Financial Statements**

The fund financial statements provide more detailed information about the District's most significant funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and by grantor requirements.

The District has three funds, the General Fund, the Atwood Park Fund, and the City Mitigation Fund.

<b>Total expenses</b>	<u>\$ 6,280,314</u>	<u>\$ 4,620,750</u>	<u>\$ 1,659,564</u>

Total expenses for the District's operations increased by 35.92% or \$1,659,564 from \$4,620,750 to \$6,280,314 from the prior year, primarily due to an increase in employee benefits and depreciation expenses of \$1,241,089 and \$144,424, respectively. The increase in employee benefits was largely non-cash expenses related to the annual reevaluation of pension and other post-employment benefits liabilities.

**GOVERNMENTAL FUNDS FINANCIAL ANALYSIS**

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, the *unreserved fund balance* may serve as a useful measure of the government's net resources for spending at the end of the fiscal year.

As of March 31, 2023, the District reported a total fund balance of \$3,652,496. An amount of \$939,112 constitutes the District's *unassigned fund balance*, which is available for future expenditures.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The final budgeted expenditures for the District at year-end were \$256,924 more than actual. The variance is principally due to over-budgeting for Materials and Services. The final budgeted revenues for the District at year-end were \$43,227 less than actual. The variance is principally due to under-budgeting for Property tax revenue.

### **NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES**

#### **A. Description of Organization**

The Auburn Area Recreation and Park District (District) was formed as an independent special district to provide quality leisure services, park, programs, and facilities; address the recreational needs of all ages; promote positive customer service, fiscal responsibility, and accountability; and enhance and promote personal well-being and a sense of community.

The District is the primary governmental unit based on the foundation of a separately elected five-member board, with each member serving 4-year terms. The Board has decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

#### **B. Reporting Entity**

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, and agencies that are not legally separate from the District.

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District, in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

The District has identified the following organizations that are required to be reported as component units.

The Friends of the Auburn Area Recreation and Park, Inc. (the foundation) was created as a non-profit entity under section 501(c)(3) to receive donations, obtain grants, and conduct fundraising events to generate revenues that will enhance the District's recreation programs. The Foundation is reported as a blended component unit of the District because the District's governing body is also the governing body of the Foundation. The Foundation's funds are reported as restricted assets on the District's financial statements as a component of the general fund as of the year ended December 31, 2022, since the Foundation has a different fiscal year end than the District.

### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### C. Basis of Presentation, Basis of Accounting

##### 1. Basis of Presentation

###### **Government-Wide Financial Statements**

The statement of net position and the statement of activities display information about the primary government (the District) and its component units. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

###### **Major Governmental Funds**

The District maintains the following major governmental funds:

**General Fund:** This fund is used to account for all the financial resources of the District, except those required to be accounted for in another fund when necessary.

In addition to the General Fund, the District also has special revenue funds used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes that are non-major funds:

**Atwood Park Special Revenue Fund:** This fund is used to account for resources received and expenditures of fees levied on property owners of the District that specifically restricted for installation, maintenance, and servicing of public facilities within Atwood Park.

**City Mitigation Special Revenue Fund:** This fund is used to account for resources received and expenditures of fees levied on property owners of the District that specifically restricted for installation, maintenance, and servicing of public facilities within the City of Auburn.

### NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### C. Basis of Presentation, Basis of Accounting (continued)

##### 2. Measurement Focus, Basis of Accounting

###### Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year in which all eligibility requirements have been satisfied.

###### Governmental Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and financing from capital leases are reported as other financing sources.

##### 3. Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year. Generally, available is defined as collectible within 60 days.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

### NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

##### 1. Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

##### 2. Lease Receivable and Deferred Inflows of Resources

The primary objective is to enhance the relevance and consistency of information about the governments' leasing activities. As a lessor, the District is required to recognize a lease receivable and a deferred inflow of resources at the commencement of the lease term, with certain exceptions. The District's lease receivable is measured at the present value of the lease payments expected to be received during the lease term. Under the lease agreement, the District may receive variable lease payments that are dependent upon the lessee's revenue. The variable payments are recorded as an inflow of resources in the period the payment is received. A deferred inflow of resources is recorded for the lease. The deferred inflow of resources is measured at the value of the lease receivable in addition to any payments received at or before the commencement of the lease term that relate to future periods. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease.

##### 3. Prepaid Items

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

##### 4. Investments

Investments are reported at fair value except for short-term investments, which are reported at cost, which approximates fair value. Cash deposits are reported at carrying amount, which reasonably estimates fair value. Investments in governmental investment pools are reported at fair value based on the fair value per share of the pool's underlying portfolio.

In accordance with fair value measurements, the District categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement.

Financial assets and liabilities recorded on the balance sheet are categorized based on the inputs to the valuation techniques as follows:

*Level 1* – Inputs that reflect unadjusted quoted prices in active markets for identical investments, such as stocks, corporate and government bonds. The District has the ability to access the holding and quoted prices as of the measurement date.

*Level 2* – Inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active.

**AUBURN AREA RECREATION AND PARK DISTRICT**

*Notes to Financial Statements*

*March 31, 2023*

---

**NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position**

**4. Investments (continued)**

*Level 3* – Inputs that are unobservable. Unobservable inputs reflect the District’s own assumptions about the factors market participants would use in pricing an investment and is based on the best information available in the circumstances.

**5. Capital Assets**

Capital assets are stated at cost or at their estimated fair value at date of donation. It is the District’s policy to capitalize assets costing over \$3,000. The provision for depreciation is computed using the straight-line method over the estimated service lives of the capital assets.

Estimated service lives for the District’s classes of assets are as follows:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and improvements	20 years
Furniture and equipment	3-10 years
Vehicles	8 years

**6. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

**7. Unearned Revenue**

Unearned revenue represents fees received prior to services or events taking place.

**8. Compensated Absences**

The liability for compensated absences reported in the government-wide statements consists of unpaid, accumulated annual and vacation leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

---

**NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)**

**9. Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plan and addition to/deductions from the Plans fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

Valuation Date June 30, 2021  
Measurement Date June 30, 2022  
Measurement Period July 1, 2021 to June 30, 2022

**10. Other Post-Employment Benefits (OPEB)**

For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Retiree Benefit Plan (OPEB Plan) and additions to/deductions from the OPEB Plans' fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

Valuation Date March 31, 2022  
Measurement Date March 31, 2022  
Measurement Period April 1, 2022 to March 31, 2023

**11. Interfund Transactions**

Operating transfers are transactions to allocate resources from one fund to another fund not contingent on the incurrence of specific expenditures in the receiving fund. Interfund transfers are generally recorded as operating transfers in and operating transfers out in the same accounting period.

Transactions between funds that represent lending/borrowing arrangements outstanding at the end of a fiscal year are referred to as due to/from other funds.

---

### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

##### 12. Net Position

Net position is classified into two components: net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

- **Net investment in capital assets** - This component of net position consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- **Restricted net position** - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net position** - This component of net position consists of net position that does not meet the definition of net investment in capital assets.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

##### 13. Fund Balances

The fund balance for governmental funds is reported in classifications based on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

**Nonspendable:** Fund balance is reported as nonspendable when the resources cannot be spent because they are either in a nonspendable form or legally or contractually required to be maintained intact. Resources in nonspendable form include inventories and prepaid assets.

**Restricted:** Fund balance is reported as restricted when the constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provision or by enabling legislation.

**Committed:** The District's highest decision-making level of authority rests with the District's Board. Fund balance is reported as committed when the Board passes a resolution that places specified constraints on how resources may be used. The Board can modify or rescind a commitment of resources through passage of a new resolution.

**Assigned:** Resources that are constrained by the District's intent to use them for a specific purpose, but are neither restricted nor committed, are reported as assigned fund balance. Intent may be expressed by either the Board, committees (such as budget or finance), or officials to which the Board has delegated authority.

### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 13. Fund Balances (continued)

**Unassigned:** Unassigned fund balance represents fund balance that has not been restricted, committed, or assigned and may be utilized by the District for any purpose. When expenditures are incurred, and both restricted and unrestricted resources are available, it is the District's policy to use restricted resources first, then unrestricted resources in the order of committed, assigned, and then unassigned, as they are needed.

#### E. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

#### F. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1, each year. Secured property taxes are levied on July 1 and are payable in two installments, on December 10 and April 10. The County of Placer County Assessor's Office assesses all real and personal property within the County each year.

Property tax in California is levied in accordance with Article 13A of the State Constitution at one (1%) of countywide assessed valuations. The Placer County Treasurer's Office remits an undisclosed portion of the one (1%) current and delinquent property tax collections to the District throughout the year.

#### G. New Pronouncements - Governmental Accounting Standards Board (GASB)

During the fiscal year ended March 31, 2023, the District has implemented a new pronouncement as follows:

##### **GASB Statement No. 87 - Leases**

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement were effective for reporting periods beginning after December 15, 2019. However, GASB Statement No. 95 postponed its effective date by 18 months due to the COVID-19 pandemic and its effect on the audit/accounting industry. The District adopted the Statement as of April 1, 2022. See Note 4 for the effect of this Statement.

**Demand Deposits with Financial Institutions**

At March 31, 2023, the carrying amount of the District's demand deposits were \$322,154, and the financial institution's balance was \$372,873. The net difference represents outstanding checks, deposits-in-transit and/or other reconciling items between the financial institution's balance and the District's balance for each year.

**Custodial Credit Risk – Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. Cash balances held in banks are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC) and are collateralized by the respective financial institutions. In addition, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits.

**Placer County Treasury Investment Pool (PCTIP)**

The District is a voluntary participant in the Placer County Treasury Investment Pool (PCTIP) pursuant to Government Code Section 53694. The cash flow needs of participants are monitored daily to ensure that sufficient liquidity is maintained to meet the needs of those participants. At the time deposits are made, the Placer County Treasurer may require the depositing entity to provide annual cash flow projections or an anticipated withdrawal schedule for deposits in excess of \$1 million. Projections are performed no less than semi-annually. In accordance with Government Code Section 27136, all request for withdrawal of funds for the purpose of investing or deposits the funds elsewhere shall be evaluated to ensure the proposed withdrawal will not adversely affect the principal deposits of the other participants. As of March 31, 2023, the District's cash balance in PCTIP was \$3,139,648.

**Investments**

The District's investments as of March 31, 2023 were as follows:

**Investment in Pension Trust**

The District established a Section 115 trust account with CaPERS entitled California Employers' Pension Prefunding Trust (CEPPT) to hold assets that are legally restricted for use in administering the District's pension plan. Trust account holders can select from two strategy options for investments. The District has invested in both the asset allocation Strategy 1 and 2 portfolios. Both portfolios seek to provide capital appreciation and income, but the Strategy 1 portfolio has a higher allocation to equities than bonds. The CEPPT Strategy 1 and Strategy 2 portfolio consists of the following asset classes and corresponding benchmarks:

Asset Class	Strategy 1 Target Allocation	Strategy 2 Target Allocation	Target Range	Benchmark
Global Equity	37%	21%	+/- 5%	MSCI All Country World Index (net)
Fixed Income	44%	61%	+/- 5%	Bloomberg Barclays U.S. Aggregate Bond Index

Cash	0%	0%	+/- 2%	91 Day Treasury Bill
	<u>100%</u>	<u>100%</u>		

**Credit Risk**

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. As of March 31, 2023, the District's cash balance in the PCTIP was rated by Standard & Poor's as AAf/S1.

**Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the fair values of investments with longer maturities have greater sensitivity to changes in market interest rates. The District's investment policy follows the Code as it relates to limits on investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates. The District has elected to use the segmented time distribution method of disclosure for the maturities of its investments as related to interest rate risk as noted in the previous table.

**Concentration of Credit Risk**

The District's investment policy contains no limitations on the amount that can be invested in any one governmental agency or non-governmental issuer beyond that stipulated by the California Government Code. There were no investments in any one governmental or non-governmental issuer that represented 5% or more of the District's total investments except for those in the PCTIP.

**NOTE 3 - RESTRICTED ASSETS**

Restricted - cash and investments as of March 31<sup>st</sup> consisted of the following:

Description	March 31, 2023
Investments held by pension trust	\$ 438,228
<b>Total restricted - net position</b>	<u>\$ 438,228</u>

The District's restricted assets are funds deposited into a Section 115 plan trust.

**NOTE 4 – LEASE RECEIVABLE AND DEFERRED INFLOWS OF RESOURCES – LEASES**

Changes in the District's lease receivable for the year ended March 31, 2023, was as follows:

<u>Description</u>	<u>Balance April 1, 2022</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance March 31, 2023</u>
Cellular antenna site rental	\$ -	\$ 167,393	\$ (30,125)	\$ 137,268

	<u>\$ -</u>	<u>\$ 183,294</u>	<u>\$ (36,840)</u>	<u>\$ 146,454</u>

The District is reporting a total lease receivable of \$146,454 and a total related deferred inflows of resources of \$142,748 for the year ending March 31, 2023. Also, the District is reporting total lease revenue of \$40,095 and interest revenue of \$3,331 related to lease payments received for the years ending March 31, 2023.

The leases held by the District do not have implicit rates of return, therefore the District used their incremental borrowing rate of 2.00% to discount the lease revenue to the net present value. In some cases, leases contain termination clauses. In these cases, the clause requires the lessee or lessor to show cause to terminate the lease. Also, certain leasing-types are considered "volatile leases." Those volatile leases were not extended past their initial lease period for financial statement recognition due to their volatility.

***Cellular Antenna Site Rental***

The District, on April 1, 2022, renewed a continuous lease with Verizon Wireless for 60 months as lessor for the use of a cellular antenna site rental. An initial lease receivable was recorded in the amount of \$167,393. As of March 31, 2023, the value of the lease receivable was \$137,268. The lease is required to make monthly fixed payments of \$2,706 for the first 12-month period, then increase 3.0% on July 1<sup>st</sup> of each year. The lease has an interest rate of 2.00%. The value of the deferred inflow of resources was \$91,012 as of March 31, 2023. The District recognized lease revenue of \$32,992 and interest revenue of \$3,075 during the fiscal year. The lessee will be evaluated by the District for future extensions after the completion of this lease period. Since this is considered a volatile lease only this lease period has been recognized.

***Building Space Lease***

The District, on April 1, 2022, renewed a continuous lease with a Preschool for 27 months as lessor for the use of building/office space. An initial lease receivable was recorded in the amount of \$15,901. As of March 31, 2023, the value of the lease receivable was \$9,186. The lease is required to make monthly fixed payments of \$554 for the first 12-month period, then increase 6.5% on July 1<sup>st</sup> of each year. The lease has an interest rate of 2.00%. The value of the deferred inflow of resources was \$8,834 as of March 31, 2023. The District recognized lease revenue of \$7,103 and interest revenue of \$256 during the fiscal year. The lessee will be evaluated by the District for future extensions after the completion of this lease period. Since this is considered a volatile lease only this lease period has been recognized.

**Summary**

The following balances on the balance sheet will be addressed in this footnote as follows:

<u>Description</u>	<u>2023</u>
Net other post-employment benefits obligation	\$ 257,900
OPEB related deferred inflows	177,485

**A. General Information about the OPEB Plan**

**Plan Description**

The District administers a single employer defined benefit healthcare plan (the Retiree Health Plan). The District currently provides retiree health benefits to eligible employees. The District sponsors healthcare coverage under the California Public Employees Medical and Hospital Care Act ("PEMHCA"), commonly referred to as PERS Health. PEMHCA provides health insurance through a variety of Health Maintenance Organization (HMO) and Preferred Provider Organization (PPO) options.

Employees are eligible for District-paid retiree medical benefits upon attainment of age 50 and five years of service. The District contributes the PEMHCA minimum under the unequal method (5% times number of years the District has been in PEMHCA). The District's non-represented group joined PEMHCA in 2015. Employees must work more than 30 hours a week to be eligible for benefits. The statutory minimum used to designate the District's PEMHCA requirement was \$149.00 per month for 2022. The \$149.00 increased to \$151.00 per month in 2023 and is scheduled by law to be indexed with medical inflation (CPI).

Effective August 1, 2020, the District amended the plan to include represented employees.

	<u>2023</u>
Inactive plan members or beneficiaries currently receiving benefit payments	2
Inactive plan members entitled to but not yet receiving benefit payments	-
Active plan members	<u>31</u>
Total	33

**Funding Policy**

The contribution requirements of Plan members and the District are established and may be amended by the District's Board of Directors subject to the District's Memorandums of Understanding with bargaining units. The required contribution is based on actual retiree health insurance premium payments required under the Plan. The District has made no discretionary payments into a trust.

**Contributions**

Benefit provisions and contribution requirements are established and may be amended through agreements and memorandums of understanding between the District and its employees. The plan does not require employee contributions. Administrative costs of this plan are financed by the District. For fiscal year ended March 31, 2023, the measurement period, the District's contributions totaled \$2,107.

**B. Net OPEB Liability**

For the fiscal year ended March 31, 2023, the District's total OPEB liability was measured as of March 31, 2023 and was determined by an actuarial valuation as of March 31, 2022. A summary of the principal assumptions and methods used to determine the total OPEB liability are noted below.

**Actuarial Assumptions**

The total OPEB liability in the March 31, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date	March 31, 2022
Measurement Date	March 31, 2023
Actuarial Cost Method	Entry age normal, level percentage of payroll

The Plan is a cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). The District contributes to the miscellaneous risk pool within the Plan. A full description of the pension plan benefit provisions, assumptions for funding purposes but not accounting purposes, and membership information is listed in the March 31, 2017 Annual Actuarial Valuation Report. This report is a publicly available valuation report that can be obtained at CalPERS website under Forms and Publications.

**NOTE 9 – PENSION PLAN (continued)**

**A. General Information about the Pension Plan (continued)**

The California Public Employees' Pension Reform Act (PEPRA), which took effect in January 2013, changes the way CalPERS retirement benefits are applied, and places compensation limits on members. As a result of these changes since PEPRA's adoption in January 2013, the District now has two unique CalPERS plans to which it makes contributions within the miscellaneous risk pool: the "classic" plan, which includes covered employees who have established membership in a CalPERS plan prior to January 2013, as well as the "PEPRA/new" plan, which includes covered employees who have established membership in a CalPERS plan after January 2013. Each plan or membership contains unique benefits levels, which are enumerated in the June 30, 2022 Annual Actuarial Valuation Reports.

At March 31, 2023, the following members were covered by the benefit terms:

Plan Members	Miscellaneous Plans		Total
	Classic	PEPRA	
	Tier 1	Tier 2	
Active members	14	34	48
Transferred and terminated members	62	32	94
Retired members and beneficiaries	25	-	25
<b>Total plan members</b>	<b>101</b>	<b>66</b>	<b>167</b>

All qualified permanent and probationary employees are eligible to participate in the District's cost-sharing multiple-employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by state statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

**Benefits Provided**

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to Plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonindustrial disability benefits after five years of service. The death benefit is one of the following the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each Plan are applied as specified by the Public Employees' Retirement Law.

**Contributions**

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

**NOTE 9 – PENSION PLAN (continued)**

**A. General Information about the Pension Plan (continued)**

Contributions for the year ended March 31, 2023, (Measurement Date March 31, 2022) were as follows:

<b>Contribution Type</b>	<b>Miscellaneous Plans</b>		<b>Total</b>
	<b>Classic Tier 1</b>	<b>PEPRA Tier 2</b>	
Contributions - employer	\$ 177,800	\$ 108,937	\$ 286,737

**B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions**

**Proportionate Share of Net Pension Liability and Pension Expense**

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of March 31, 2023, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of March 31, 2021, rolled forward to March 31, 2022, using standard update procedures. The District's proportionate share of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employees, actuarially determined.

The following table shows the District's proportionate share of the risk pool collective net pension liability over the measurement period for the Miscellaneous Plan for the fiscal year ended March 31, 2023:

<b>Plan Type and Balance Descriptions</b>	<b>Plan Total Pension Liability</b>	<b>Plan Fiduciary Net Position</b>	<b>Change in Plan Net Pension Liability</b>

**NOTE 9 – PENSION PLAN (continued)**

**B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)**

The District's proportionate share of the net pension liability for the March 31, 2022, measurement date was as follows:

	Percentage Share of Risk Pool		Change Increase/ (Decrease)
	Fiscal Year Ending March 31, 2023	Fiscal Year Ending March 30, 2022	
	June 30, 2022	June 30, 2021	
Measurement Date			
Percentage of Risk Pool Net Pension Liability	0.002528%	-0.001759%	0.004287%
Percentage of Plan (PERF C) Net Pension Liability	0.010241%	-0.000618%	0.010859%

For the fiscal year ended March 31, 2023, the District recognized pension Expense of \$777,822. At March 31, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Account Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions made after the measurement date	\$ 227,784	\$ -
Difference between actual and proportionate share of employer contributions	-	(125,823)
Adjustment due to differences in proportions	352,462	(74,550)
Differences between expected and actual experience	23,756	(15,910)
Differences between projected and actual earnings on pension plan investments	216,688	-
Changes in assumptions	121,220	-
<b>Total Deferred Outflows/(Inflows) of Resources</b>	<b>\$ 941,910</b>	<b>\$ (216,283)</b>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.8 years.

**NOTE 9 – PENSION PLAN (continued)**

**B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)**

An amount of \$227,784 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending March 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as a reduction to pension expense as follows:

<b>Amortization Period Fiscal Year Ended March 31</b>	<b>Deferred Outflows/(Inflows) of Resources</b>
2024	\$ 126,414
2025	124,975
2026	113,920
2027	132,534
<b>Total</b>	<b>\$ 497,843</b>

**Actuarial Methods and Assumptions Used to Determine Total Pension Liability**

For the measurement period ending March 31, 2022 (the measurement date), the total pension liability was determined by rolling forward the March 31, 2020, total pension liability. The March 31, 2022, total pension liability was based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal in accordance with the requirement of GASB Statement No. 68
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table	Derived using CalPERS' Membership Data for all Funds.
Post Retirement Benefit Increase	Contract COLA up to 2.30% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.30% thereafter

**Long-term Expected Rate of Return**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

### NOTE 9 – PENSION PLAN (continued)

#### B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

##### Long-term Expected Rate of Return (continued)

The table below reflects long-term expected real rate of return by asset class.

Investment Type <sup>1</sup>	New Strategic Allocation	Real Return Years 1 - 10 <sup>2</sup>	Real Return Years 11+ <sup>3</sup>
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Estate	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	-0.92%
	<u>100.0%</u>		

<sup>1</sup> In the CalPERS's ACFR, fixed income is included in global debt securities; liquidity is included in short-term investments; inflation assets are included in both global equity securities and global debt securities.

<sup>2</sup> An expected inflation rate-of-return of 2.5% is used for years 1-10.

<sup>3</sup> An expected inflation rate-of-return of 2.9% is used for years 11+.

##### Discount Rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

##### Subsequent Events

There were no subsequent events that would materially affect the results in this disclosure.

**NOTE 13 - JOINT VENTURE**

The District is a member of The California Association for Park and Recreation Indemnity (CAPRI) is a Joint Powers Authority which provides insurance coverages, risk management, safety and loss prevention services through a financially sound risk-sharing pool. The original pool was created in 1986 while the current organization is the result of the merger on July 1, 2008 between California Association for Park and Recreation Insurance and Park and Recreation District Employee Compensation (PARDEC).

CAPRI's membership consists of various recreation and park districts in California. Through its various programs, members are able to pool member contributions and to realize the advantages of self-insurance. It provides coverage for property, general liability, workers' compensation, public officials and employee liability, automobile liability, and other minor coverages. CAPRI is under the control and direction of the Board of Directors consisting of representatives of the member districts.

Each member agency pays a contribution commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in the joint-powers authority. Full financial statements are available separately from the California Association for Park and Recreation Indemnity at 6341 Auburn Blvd., Suite A, Citrus Heights, California 95621. The District is self-insured for comprehensive liability coverage as a member of the California Association for Park and Recreation Insurance (CAPRI). CAPRI is a public agency risk pool created pursuant to a joint powers' agreement between the numerous member Districts. CAPRI manages one pool for all member agencies. Each member pays an annual premium to the system based on numerous factors including the number of personnel, types and values of assets held, and an experience factor. CAPRI reinsures through a commercial carrier for claims in excess of \$1,000,000 for each insured event. The District also participates in the Special District Risk Management Authority (SDRMA) Workers' Compensation and Employers' Liability Coverage Agreement.

### NOTE 14 – RISK MANAGEMENT (continued)

#### Coverage provided under CAPRI and SDRMA

##### Property/Liability Program

Comprehensive general liability coverage with a \$25,000,000, including \$1,000,000 (CAPRI) self-insured limit per occurrence for personal injury and property damage to which the coverage applies. There is no deductible to the District.

Public officials and employee liability coverage with a \$1,000,000 annual aggregate limit per member district because of a wrongful act which occurs during the coverage period for which the coverage applies. There is a \$25,000 deductible for any covered claim for wrongful termination payable by the District.

Flood and earthquake coverage with an annual aggregate limit of \$5,000,000 for all the member districts. The deductible for all loss or damage arising from the risks of flood and/or earthquake is \$50,000 per occurrence, or 5% for earthquake and \$50,000 for flood or wildfire, of the value of the building, contents, and/or structure damaged, whichever is greater.

Theft and employee dishonesty coverage with a limit of \$1,000,000 and a deductible of up to \$25,000 per occurrence, with \$5,000 deductible.

##### Workers' Compensation Program

Workers' compensation coverage of \$5,000,000 under (SDRMA) with zero-member deductible.

The District maintains workers' compensation coverage and employer's liability coverage in accordance with the statutory requirements of the State of California.

Settled claims have not exceeded any of the coverage amounts in any of the last three fiscal years. There were no reductions in insurance coverage in fiscal years 2023, 2022, and 2021. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payable as of March 31, 2023, 2022, and 2021.

### NOTE 15 – COMMITMENTS AND CONTINGENCIES

#### Excluded Leases – Short-Term Leases and De Minimis Leases

The District does not recognize a lease receivable and a deferred inflow of resources for short-term leases. Short-term leases are certain leases that have a maximum possible term under the lease contract of 12-months (or less), including any options to extend, regardless of their probability of being exercised.

Also, *de minimis* lessor or lessee leases are certain leases (i.e., room rental, copiers, printers, postage machines) that regardless of their lease contract period are *de minimis* with regards to their aggregate total dollar amount to the financial statements as a whole.

#### Grant Awards

Grant funds received by the District are subject to audit by the grantor agencies. Such an audit could lead to requests for reimbursements to the grantor agencies for expenditures disallowed under terms of the grant. The management of the District believes that such disallowances, if any, would not be significant.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors  
Auburn Area Recreation and Park District  
Auburn, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Auburn Area Recreation and Park District (District) as of and for the year ended March 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated June 23, 2023.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
